

DEPARTMENT OF THE AIR FORCE

AIR FORCE RESERVE COMMAND

11 April 2001

MEMORANDUM FOR ALL 340 FTG PERSONNEL

FROM: 340 FTG/CC
555 E Street West, Suite 4
Randolph AFB, TX 78150-4532

SUBJECT: Requirement for Air Force Physical

1. It has come to my attention that we have had several situations with applicants using another service's physical for the application process and we later discovered that they required a medical waiver. This required that the applicant go to an Air Force installation to have the waiver process initiated and/or to complete additional medical testing. Needless to say, this caused additional delays that could have been alleviated.

2. In accordance with AFRCI 36-2001, 1 Oct 99, paragraph 4.7.4, *"flying physicals require HQ AFRC/SG certification (stamp marked) before accession to the AFR. Applicants applying for flying positions must be administered a flight physical examination."* In addition the note for Table 4.14 states, *"flying class physicals may be accomplished at any military medical facility. However, they must be reviewed and countersigned by an Air Force (or ARC) flight surgeon prior to further processing."* In light of these requirements and the difficulties we have had with physicals from other services, as of this date our policy will require that all applicants will have an Air Force physical, with appropriate AFRC/SG coordination, in their application package.

3. This policy will remain in effect until further notice.

NEIL A. ROHAN, Colonel, USAF
Commander
